DETAILED ACTION

Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-16, drawn to a method for controlling a causticizing process, classified in class 423, subclass 419.1.
 - II. Claims 17-25, drawn to an apparatus for controlling a causticizing process, classified in class 422, subclass 129+.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed can be practiced by hand, such as adding calculated amounts of reactants and stirring by hand in an open container.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1754

4. Because these inventions are distinct for the reasons given above and the search required

for Group I is not required for Group II, restriction for examination purposes as indicated is

proper.

5. Because these inventions are distinct for the reasons given above and have acquired a

separate status in the art because of their recognized divergent subject matter, restriction for

examination purposes as indicated is proper.

6. A telephone call was made to Cathy Moore on June 13, 2002 to request an oral election to

the above restriction requirement, but did not result in an election being made. Applicant is

advised that the reply to this requirement to be complete must include an election of the invention

to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Eileen E. Nave whose telephone number is (703) 305-0033.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Stanley Silverman can be reached on (703) 308-3837.

The fax phone numbers for the organization where this application or proceeding is

assigned are (703) 872-9671 for regular communications and (703) 872-9311 for After Final

communications.
